To Whom It May Concern:

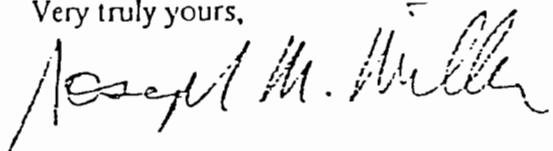

It is my pleasure to recommend the Barrington Psychiatric Center and Raymond J. Friedman, M.D., to the Workers' Compensation Community for Agreed Medical Evaluations. I have been practicing law in California for over 35 years and have been a Certified Workers' Compensation Specialist for 30 years. I have read psychiatric evaluation reports from virtually every practitioner in southern California and I can comfortably say that none is consistently more professional, thoughtful, and fair than those I have received from Barrington Psychiatric Center.

Dr. Friedman's reports are easy to read and the conclusions are well supported by the history, the evaluation, and the medical record. In fact, his reports have the most thorough histories I have ever seen. I have always had the feeling that Dr. Friedman is most interested in joining with attorneys from both sides in a search for a clear and accurate understanding of patients' problems and of the medical-legal issues.

From everything I've seen, and from my contacts with Barrington Psychiatric, Dr. Friedman and his entire staff are very experienced, competent and professional. Rather than advocating for one side or the other, they seem committed to an in-depth evaluation of the patient and of the facts of the case and to the provision of a non-partisan, fair, and medically sound result.

Please feel free to contact me if you should have any questions.

Very truly yours,

Joseph M. Miller
